Jim – having both meetings on the same day in Seattle (4/10) at Windward works for us.

Thanks,

Kristine Koch

Kristine, we agree it would be better to meet when the full EPA team can participate after spring break. Let's aim to meet in Seattle or Olympia on the 10th (whichever location works best for you and Elizabeth). Maybe we can dovetail the bioaccum meeting on the same day in Seattle at the Windward office (e.g., bioaccum in the morning and FS Section 2 in the afternoon?). Let us know and Jen will coordinate the arrangements.

Thanks, Jim.

Jim – EPA has reviewed the comments submitted by the LWG on FS Section 2. We feel that providing written responses to the comments would facilitate a meeting since many of these have been discussed quite extensively over the last year and we are surprised that many of these are still issues needing to be discussed further. Since several team members are out of the office this week due to spring break, we will not be able to get you our responses until late next week. Since the LWG is not available to meet on the 9th, we could meet on the 10th. I will be in Portland in meetings on the 8th and 9th, so please let me know ASAP if I will need to travel back down on the 10th as I can't stay over the evening of the 9th.

Thanks,

Kristine Koch

Kristine, one other scheduling issue: The LWG has a conflict with the FS placeholder meeting on April 9th. If we want to have an FS tech meeting that week it will have to be a day other than the 9th. Thanks, Jim.

Good morning Kristine. I want to follow-up with you regarding a couple of potential meetings. We have a placeholder for an FS tech meeting tomorrow and want to know if you have any topics for that meeting or if we should cancel it. Also, Jen sent you some emails about scheduling the bioaccumulation meeting in Seattle. Are there particular dates that work for you and Elizabeth?

Thanks,

Jim McKenna
